

STAT

A preliminary follow-up made this week of the file plan installed in [] office relieved that for the present time no true picture of the plan ~~inaction~~ can be made. The reason for this situation is due to the absence of personnel, not the file plan. In an effort to get the plan into action so an evaluation may be made and in the interest of promoting good relations, the Branch will endeavor to assist [] staff in eliminating any backlog or other factors related to records management.
